## **Creighton School District Student/Parent iPad Handbook & Agreement**

### **Overview Introduction:**

Creighton School District is committed to preparing students to be literate, responsible citizens in a global economy. Creighton students have the opportunity to use technology that facilitates creativity, communication, collaboration, and critical thinking in a digital world. Understanding and adhering to the following guidelines and procedures is necessary for the success of the program.

### **iAchieve Flip Learning**

In a flip learning classroom, students focus on mastering content during class time under the guidance of the teacher. Flip learning provides a 21<sup>st</sup> Century learning environment through innovative programs that enhance learning and achievement. At home, students will use the iPad to watch content-related videos chosen by the teacher while taking notes to prepare them for instruction in the classroom the following day. We anticipate this project will:

- Increase student motivation and enthusiasm for learning
- Encourage creativity in the learning process
- Engage students in their own learning
- Increase student understanding and achievement
- Extend the learning day with meaningful learning activities
